DETAILED ACTION

Allowable Subject Matter

1. Claims 3-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: In the applicant's remarks, applicant stated that neither Rudt, Katz nor Hunt, taken alone or in combination, disclose, suggest or teach the limitation of image synchronization from multiple cameras based on the first and second parameters, where the first parameter represents the distance between the at least two of the plurality of cameras, and the second parameter represents the velocity of the moving object, used in combination with all of the other limitations of independent claims 19-22. It is true that neither Rudt, Katz nor Hunt, taken alone or in combination, disclose, suggest or teach the limitation of image synchronization from multiple cameras based on the first and second parameters, where the first parameter represents the distance between the at least two of the plurality of cameras, and the second parameter represents the velocity of the moving object, used in combination with all of the other limitations of independent claims 19-22. Dependent claims 3-18 are patentable for the same reasons as independent claims 19-22.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
